Protect Your Most Valuable Asset
Your Ability To Earn A Living
Your lifestyle and dreams for the future depend on your ability to earn a living.

When you take into account all that you’ve worked so hard to achieve, consider the fact that your paycheck made it all possible.

One of the most important decisions you will make will be to insure your ability to earn an income.

Disability Income Insurance will provide you with monthly income if you are unable to work as a result of an injury or illness.
Your Income At Work

We protect our homes, cars, lives and even identities with insurance. But we often fail to consider protecting our most valuable resource – our income.

Your Income pays for the big things

- HOME
- HEALTH CARE
- EDUCATION
- RETIREMENT

Your Income pays for the little things

- MUSIC LESSONS
- SHOPPING
- SMARTPHONES
- GYM MEMBERSHIP

It is critical to make sound decisions when it comes to your overall financial portfolio. Today’s unsettled economic times coupled with uncertainty in the job market are exactly why it’s necessary for you to protect against risks.
The Most Common Disability Causes

Even a short-term disability can put enormous financial strain on you and your family.

- **2%** Infectious Diseases
- **10%** Circulatory System
- **18%** Nervous System
- **10%** Injuries
- **8%** Cancer
- **17%** Mental & Nervous / Substance Abuse
- **26%** Musculoskeletal System Connective Tissue (Muscle, Back and Joint Disorders)

Does Your Income Protection Plan Satisfy Your Needs?

If you are suddenly unable to work for any period of time, you could lose your income and everything it provides. Will the following sources of income be sufficient to provide for you and your family?

- **Social Security**
  Over half of all applicants for disability protection are denied. The average monthly payment is under $1,130 a month.

- **Worker’s Compensation**
  Only 10% of disability cases are caused by eligible on-the-job injuries.

- **Asking Family And Friends For Money**
  Having to ask family or friends to borrow money will put unneeded stress on you at a time when you should be focused on recovering.

- **Retirement Savings**
  Do you really want to use hard earned savings to pay your daily living expenses? By withdrawing the funds you may also incur penalties and taxes.

- **Borrowing From A Financial Institution**
  Your chances of borrowing money from a financial institution could be slim without an income.

- **Group Long Term Disability**
  Employer sponsored plans only provide 60% of pre-disability earnings. After tax this leaves you with an adjusted net income of 47% of your pre-disability earnings. Can you afford to take a 53% pay cut?

---

**FACT**

1 in 2 Americans would be in financial trouble in less than a month if they became too sick or hurt to work.
